

Spotlight: sgll4ra in immune microniches (tuned)

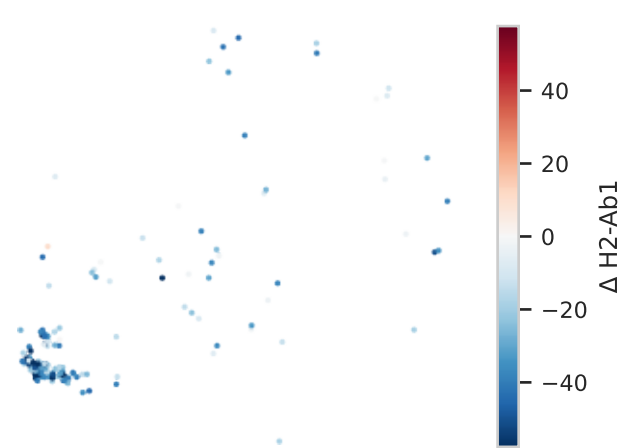

A β -Leiden niches + sgll4ra cells
subQ-1 immune

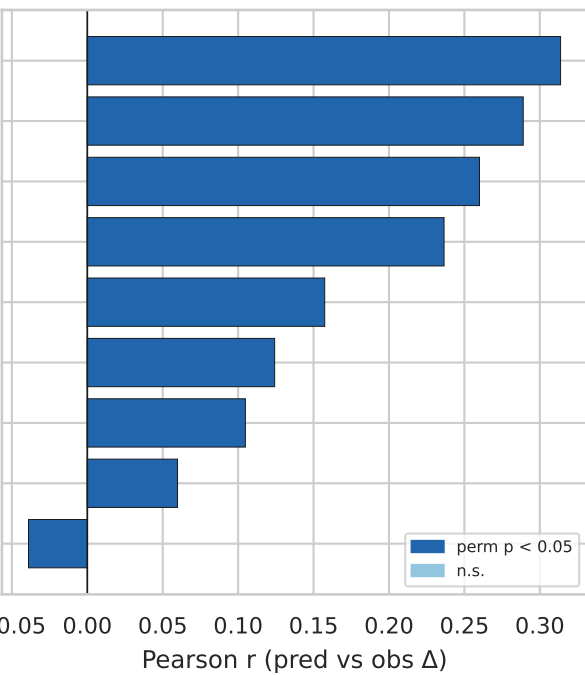

B graphclust (morphology) reference

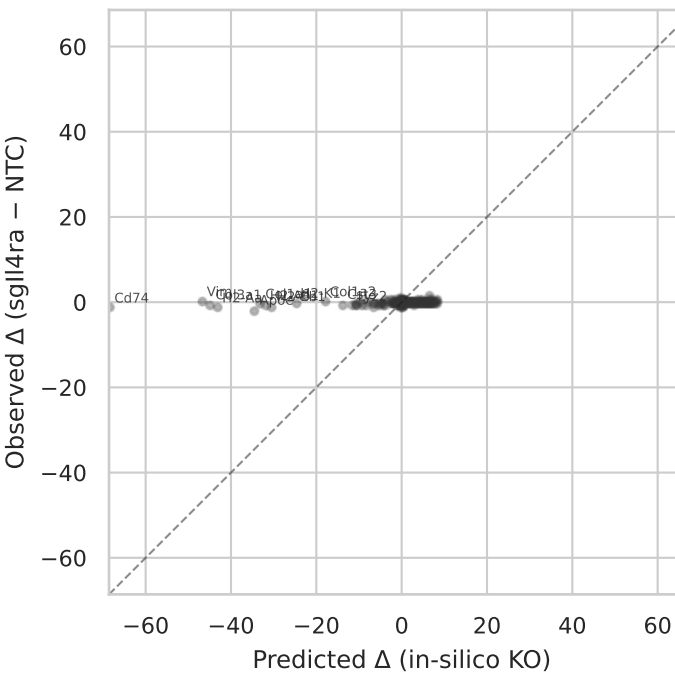

C Predicted Δ H2-Ab1 (in-silico KO)

D Per-niche concordance (4 slices)

E Best niche: subQ-1 N5
 $r = +0.314$, perm p = 0.000

F Pooled across all β -Leiden niches
 $r = +0.184$ (n=19,332 genexniche)
